# Dispute Resolution Services

## Commercial Disputes

Businesses and those owning them may have many types of disputes including disputes over unpaid invoices, breaches of contracts or between shareholders or partners.

## Commercial Landlord & Tenant

We advise on issues including non-payment of rent, disrepair and dilapidations and breach of covenants. A landlord's options may include forfeiture of the lease or a court claim for arrears of rent.

## Property Disputes

We handle property dispute work, including joint ownership disputes, boundaries and rights of way disputes.

## Building Disputes

We provide cost-effective, practical solutions in disputes over building work, whether acting for the building owner or the builder.

## Residential Landlords

We represent landlords in repossessions and can advise on the best options to deal with difficult tenants and regain your property.

## Professional Negligence

Poor or careless advice by professionals can have significant adverse consequences for you or your business. Professional advisors are expected to exercise reasonable skill and care in carrying out their work. We can advise if the service you receive falls short.

## Consumer Disputes

Consumers have a number of key rights protecting them when services or goods are provided by businesses.

## Wills and Probate Disputes

We can advise on whether a will can be challenged and also on problems with the administration or distribution of an estate. We can also consider whether you may have a claim under the Inheritance (Provision for Family and Dependants) Act.
